We are fearfully, wonderfully made. Ps. cxxxix, 14.

The structure of man is a theme which is extremely wonderful to contemplate. His frame is a world in mininture. In every respect he is superior to all other beings inhabiting this terpiece of mechanism which the mind can conceive. And when we consider how this complicated machine or microcosm, is supported and kept in being we cannot hesitate crying out " we are fearfully, wonderfully made." The heart is the chief instrument in the life or action of the body. It is this, which by its contraction and dilation, keeps up a perpetual circulation of the vital fluid to the most remote members of our frame. It contracts itself to force tha blood through the arteries, whence the ning in spring, when the hum of busiveins receive it and convey it back to ness had ceused, the bees of mercantile

STANZAS.

BY BERNARD BARTON ESQ. Nay, tell me not, my dearest, That Time bath dimm'd thine eye. Still, still my path thou cheerest, As in days that are gone by. Say not thy cheek is faded, By sorrows, cares and fears: That thy brow is somewhat shaded By the clouds of darker years. If Time much more had taken, I could forgive the theft, While thy heart remained unshaken, And its love for me was left.

I, too, am something older Than when met with thee; But hearts become no colder, If they are what hearts should be Thy own has never alter'd, As years have o'er me past, Thy love has never falter'd, When my brow has been o'ercast -Then tell me not of changes, In cheek, or brow, or hair-The love such loss estranges, Must be lighter far than air.

Though morning's early splendor May rapture's thrill impart, The vesper hour more tender, Sinks still deeper in the heart, Though spring be gay with roses, And summer's skies are clear. Yet autumn's hand uncloses. The rich harvest of the year, E'en Age's wintry weather Inspires no thought of gloom. In hearts which share together Hopes of spring beyond the tomb.

#### RECOMMENDATIONS.

From the Rev. Leonard Woods, D. D. of the Theological Seminary, Andover. " Dear Str,-I have attentively examined the Columbian Class-Book, and am well sat- tors, Collectors & Sheriffs' Deeds-Bondsisfied that the plan is judicious and well exccuted, and that a school book, containing ed in so interesting a form, will be an addi-tion to the advantages already enjoyed by American youth. Should you proceed to publish the book, as I hope you will, I should have no doubt of its gaining, in due time, an extensive patronage among the Instructors and friends of the rising generation. With the sincerest wishes for your success in this effort to promote the education of our youth, I am, dear sir, yours, very respectfully, LEONARD WOODS.

" Andover, July 5, 1824. " Dr. A. T. Lowe.

From the Rev. Ecekiel L. Bastom, A. M. " I have had the satisfaction of casting my eye over the Columbian Class-Book, compil entirely new, and presents a course of reading which must be highly interesting as well as instructive. I am much pleased both with the design and execution of the design and the design ed by Dr. Lowe. The plan appears to me the design and execution of the work, and, while I give it my cordial approbation, I confidently recommend it to the public as a book calculated to convey much useful information, refined amusement and important in EZEKIEL L. BASCOM. struction. " Ashby, June 15, 1824."

From the Rev. Aaron Bancroft, D. D. " Wercester, June 23, 1824.

" Dear Sir,-I have given your manuscript is much attention, as the time and my interaption by company would permit. The plan, I think must be good. There seems to Bookslore, a new lot of Octavo BIBLES be a variety in the articles, most of the piewith references-also 12mo and pocket BL ces are in themselves important, and are cal-BLES, in common and ELEGANT binding, culated to attract the attention of youth and which will be sold at great discount, if called give them useful information. MAHIS most excellent preparation is canposed of a number of the most powerful articles which the Materia Medica afferds, several of which have never before been combined in any preparation, of this kind, and is considered, by good judges, to be decidedly superior to any other Opodeldoc. Externally it will be used with great advantage for gout and rheumatism; for Strains, Brukes and Swellings; for Numbness, Stiffness, and Cramp, in the Neck, Back or Limbs. Surgeons will find it an admirable application to dislocated joints and Fractured Bones, both before and after setting. Internally it is used with the most happy

effects for Asthma for hard dry, spasmodic coughs attended with pain in the side, for Hooping Cough, for pains and soreness, in the stomach and sides caused by lifting or otherwise, for suppression of the Urin, for Deafuesa which has recently occurred, and for pains and itching in the ears; a lock of cotton dip-ded in it and put into a painful tooth, gives immediate relief. It will be found to possess all the virtues of the British Oil, of the white or any other Opodeldoc now in existence, while its power and effects are double to that of any of them .- Testimonies of its beneficial effects in particular cases might be multiplied at pleasure, but the following respectable Certificates are thought to be sufficient. CERTIFICATES.

I, the subscriber, do hereby certify, that af. ter having been troubled with a Rheumatic Affection for some years, I was attacked with wards the close of the year 1824, and was attended on for a number of weeks by two skilful physicians, without the least sensible benefit.
